\*\*\*\*\*

After years of experimentation with many types of sealers Tesco has developed "Crystal Cote". Crystal Cote is a high gloss floor finish and sealer that can be used on terrazzo, magnesite, marble, slate, tile, brick, cement and any type of concrete. Crystal Cote is an excellent sealer by itself and a perfect base coat for Tesco "Crystal Seal", when sealing porous clay type tiles.

Tesco Crystal Cote penetrates the surface and becomes an integral part of the floor. We have eliminated most all solvents that are harmful to our environment and produced a safer sealer that meets or exceeds all indoor air quality standards. Crystal Cote can be used both indoor and outdoor without the worry of discoloration.

Crystal Cote absorbs, dries quickly and will leave a glossy clear finish. Crystal Cote is a "NON" flammable water base acrylic sealer with no special handling required, however it should be protected from freezing and used in temperatures above 40 degrees fahrenheit. Crystal Cote's drying time is approximately 60 minutes at 70 degrees and is best to allow 24 hours before subjecting to traffic.

## Directions:

Clean surface with Tesco Clean'Brite, rinse surface thoroughly and allow to dry. When renovating an old floor strip surface with Tesco Stripper and then clean surface with Tesco Clean'Brite, rinse surface thoroughly and allow to dry.

Application can be done by mop, roller or brush. But lambs wool applicator is recommended. If a second coat is wanted it is preferable to allow 24 hours to dry before applying the second coat.

## Technical Data:

Specific Gravity	1.015
Appearance	Milky White Liquid
Odor	Slight Solvent Odor
Viscosity	< 15 CPS
PH	8.5 +/- 0.5
Total Solids	20.3%
Shelf Life	2 years (keep from freezing)
Coverage	600-900 sq. ft./gal.
VOC	39 grams/liter

Not readily biodegradable  
Store in a cool dark place/Keep from freezing
