WHAT IT IS AND WHAT IT DOES: A specially formulated compound for removing most all types of seals, waxes and oil from terrazzo, oxychloride cements, portland cement, marble, and other stone surfaces, quickly and inexpensively.

ADVANTAGES AND USER BENEFITS: Quickly and efficiently strips any and all waxes, heavy-duty polymer finishes, acrylic paste waxes and even the tenacious TESCO Crystal Seal from masonry and cement floors.

HOW TO USE: Apply TESCO Stripper undiluted to a section of the dry terrazzo floor or to other dry stone surface. Scrub well with a brush or scrubbing pad until the surface darkens and appears wet. Add a small quantity of water and scrub again. Add additional water and keep scrubbing until the surface has a milky appearance. Scrub well. Pick up the milky mixture and rinse well with clear water several times. Fresh water rinsing should be continued until all foaming ceases. It is generally best to do a small controllable area and complete the entire cycle. The seal will not be removed efficiently if the floor has been wet first with water. Clean surface with TESCO Clean'Brite, rinse surface thoroughly and allow to dry completely before resealing.

COVERAGE: 300 to 500 square feet per gallon depending upon type of finish and thickness of build-up being removed.

WHAT TO WATCH OUT FOR: Apply only to dry floor. Caution should be used when using TESCO Stripper, the mixture is flammable and loosened resins or waxes may cause the floor to be extremely slippery. Keep away from heat and open flame. Be certain there are no lighted pilots or appliances (e.g. hot water heaters, stoves, furnaces, etc.) and do not use spark producing scrubbing or wet vacuum equipment. Do not apply over excessively hot surfaces. Avoid prolonged breathing of vapors and repeated contact with skin. Use rubber gloves and protective clothing. If eyes are contaminated, flush with water immediately. Contact your physician. Use with adequate ventilation. Do not apply to linoleum, rubber tile, vinyl tile, asphalt or painted surfaces. Do not transfer contents to bottles or unlabeled containers. Clean hands thoroughly before eating or smoking and after use.
